

Rigi – Queen of the Mountains.

This ideal day trip destination rewards visitors with a breathtaking 360° panoramic view over 13 lakes, the majestic Alps and even as far as the Black Forest in neighbouring Germany. Two cog railways – one from Vitznau (this being Europe’s very first mountain railway) and one from Goldau – together with the aerial cableways from Weggis and Kräbel (above Goldau), allow for interesting travel combinations between them. More actively inclined guests may pick and choose from a network of roughly 120 kilometres (75 miles) of hiking trails.
