Welcome aboard!

Serving you since 1888, we elegantly carry tourists 365 days a year from downtown Lucerne directly to the most important travel destinations in the Swiss Alps. Your guests are guaranteed to enjoy an unforgettable train journey right through the heart of Switzerland.

From Lucerne ...

An aerial photograph of Lucerne, Switzerland. The foreground shows the calm waters of the Reuss river with several boats docked at a pier. In the middle ground, the large, modern Lucerne Opera House (Opernhaus) is prominent, with its distinctive blue facade and glass roof. Behind the opera house, the city of Lucerne is visible, with its characteristic red-roofed buildings and a church spire. The background is dominated by the Lucerne Alps, with green hills and mountains under a dramatic, cloudy sky. The text 'From Lucerne ...' is overlaid in the upper left quadrant.

Here's where it all starts: in the heart of famous historic Lucerne. Boarding our trains, your guests are carried directly to the top destinations of Interlaken/Jungfrau and Engelberg/Titlis. An easy, comfortable journey is guaranteed.

... to the Jungfrau Region

Incomparably located between Lake Thun and Lake Brienz at the foot of the mighty triple peaks of Eiger, Mönch and Jungfrau, Interlaken has for many decades attracted visitors from around the world, serving as both their destination and point of departure for a dream holiday, which is crowned, of course, by a visit to Jungfraujoch – Top of Europe.

... or to Engelberg-Titlis!

The enchanting alpine panorama, combined with the wide range of possibilities, makes Engelberg a highly attractive travel destination. Its undisputed highlight for each visitor: Mount TITLIS and its «Cliff Walk» – Europe's highest suspension bridge.

Well connected

At the center of Europe,
in the heart of Switzerland

Being within easy reach of all major airports, only a short journey away from neighboring countries such as Italy, France or Germany, as well as offering fast and easy train and bus connections to all tourist hotspots – this is what makes our area so special.

The ground is a mix of snow-covered slopes and patches of dark earth. In the lower right corner, a railway track curves through the valley, with a train visible on it. The sky is a pale, clear blue. The overall atmosphere is serene and cold.
