Carriages and trains for hire.

Events and mobility solutions
by SBB Charter.

sbb.ch/en/charter

Events and mobility solutions by SBB Charter. Celebrating and travelling together.

With our events, everything revolves around the «celebration» requirement or the wish to organise a specific meeting or seminar. You create added value through the special atmosphere that our carriages and trains offer. However, even if you wish to travel to and from an event together, we offer the right mobility solution for you to travel sustainably, and you can even use the travel time or make the journey into an experience. To do this, you can either have our saloon and seating carriages attached to a train in the timetabled traffic or have an entire special event train put together individually. You can therefore determine the timetable, with departure and arrival times, the route required and interim stops, entirely according to your requirements. You will find the whole selection of carriages and trains at [sbb.ch/en/charter](https://www.sbb.ch/en/charter).

↑ Company celebration with catering in the Red Arrow «Churchill».

The rolling legend on rails.

Wherever it shows up, it is always bound to draw admiration: This showcase item was presented as an example of Swiss workmanship at the Swiss National Exposition in 1939. The **Red Arrow «Churchill»** acquired the legendary nickname «Churchill» in 1946 when Winston Churchill travelled through Switzerland on this train.

As a special attraction the guests may enter the driver's cab during the journey. The upholstered seating there provides two people with an unobstructed view of the tracks and allows them to watch the driver at work.

In a historic train
the journey itself
becomes an
experience.

As the right **catering** forms part of every event, it goes without saying that we also organise this on our carriages and trains according to your individual requirements. Whether you require coffee and croissants, a traditional three-course menu or a luxurious gourmet dinner, our caterers will enjoy spoiling you and your guests during the trip.

Variety and luxury to suit every taste.

The two **saloon carriages «Le Salon de Luxe»** are the two carriages with probably the greatest surprise potential. They are not only used by Federal Councillors for special trips with foreign guests of state but thanks to their varied possibilities satisfy a diverse range of requirements. And they can be ideally deployed for innovative mobile solutions.

New train ride options.

With the **saloon carriage «Le Salon Liberté»** you can choose the setup of the car yourself: is up to you whether you enjoy the scenery or rather make a presentation on the 17 displays available.

Accommodation for everyone.

In the comfortable **sitting carriages** for up to 1000 guests you and your guests travelling safely and comfortably, can work quietly, talk, prepare a meeting or simply relax.

With an innovative mobility solution, there is more time for important activities.

↖ The saloon carriages «Le Salon de Luxe» can be set up individually: here it is set up for a presentation with screen and projector, with conference table and cosy armchairs.

↑ A ride in the saloon carriage «Le Salon Liberté» provides more than a new perspective on the scenery: on the upper part of the image you can spot part of the 17 displays, which can be used for presentations.

↑ 1st class seating carriages offer you a high level of comfort and are perfect for sustainable and comfortable group travel.

Simple elegance of yesteryear.

Built in 1938, the BLS «**Blue Arrow**» shows its timeless charme with its simple design and lightweight streamlined front. Large windows and an open view inside the car compartments provide for a unique panorama.

A piece of Swiss rail history.

With its modern and award-winning interior design, the first class of the **Trans Europ Express «TEE»** surpassed the demands of passengers in its time. The train was also special in terms of technology and was able to operate on all four power systems of the European standard gauge railways. As these trains were replaced by more modern ones, one composition was saved. This is now in use once again as a historic luxury train in the original red and cream paintwork.

- ↑ Enjoy special views over the passing scenery while having brunch or an aperitif in the «Blue Arrow».
- ↑ The Trans Europ Express «TEE» on a journey across the Luogelkin Viaduct along the south ramp of the Lötschberg in Valais.

We have
suitable carriages
or the right
train for every
requirement and
every event.
