

Stoos – the world's steepest funicular.

Since 2017, the world's steepest funicular has been leading up to the mountain village of Stoos from Schwyz, inspiring passengers from far and wide. The innovative technology makes it possible for the cabins to adapt perfectly to the incline, allowing guests to arrive at the top in complete comfort – despite a 110% gradient.

Operation

Year-round operation; please take note of revision dates in spring and autumn; arrival at the mountain village Stoos, via Schwyz or Morschach, guaranteed 365 days/year

Top attractions

- World's steepest funicular
