Rigi Railway in summer, Rigi, Central Switzerland

Mountain highlights.

Hiking variety.

A broad hiking network of some 120 kilometres (75 miles) is available for guests on Rigi, offering open spaces away from the hustle and bustle of everyday life. From a comfortable, barrier-free walk to easy hiking tours to mountaineering. Those who like to challenge the mind in addition to the feet should visit one of the popular theme trails.

Swiss tradition.

What springs to mind at words like “tradition” and “Swissness”? The ringing of cow bells? A delicious cheese bread slice on the plate or alphorn blowers on a mountain peak? On the Rigi – Queen of the mountains – all of this can be had. The mountain in the heart of Central Switzerland allows visitors to experience pure Swissness.

Relaxation at the spa.

Sore hiking muscles can regenerate wonderfully in the mineral bath & spa on Rigi Kaltbad: during a relaxing bath in the spacious indoor-and-outdoor pool, in the spa area with sauna and resting zone or during a massage.

Every Wednesday – Rigi Historic Day.

With historical rolling stock up to the Queen of the Mountains – is there anybody who never dreamed about something like that as a child? And exactly such a childhood dream can become reality on Mount Rigi. Every Wednesday from May to October, guests are taken up to the Queen of the Mountains in historic rolling stock – on selected connections from Vitznau and Goldau.

Winter hiking.

Not only in summer but also during wintertime the possibilities on Rigi are virtually endless: 35 kilometres (22 miles) of perfectly maintained hiking trails, from easy altitude walks to two-hour panoramic hikes. Enjoying the pristine snowscapes on three signposted snowshoe trails between 1.1 and 3.5 kilometres (0.7 to 2.2 miles) in length makes for a very special experience.

Culinary highlights.

Bathing and hiking quicken the appetite. Fortunately, the next “Beiz”, as the locals affectionately dub restaurants, is never far away. Offers range from Rigi Alpine cheese fondue at the Alp Chäserenholz to the terroir food concept of Hotel Edelweiss, where only local products are processed. Numerous restaurants with comfortable terraces invite visitors to linger and enjoy.
