

# SWISS

## Facts and figures

# SWISS Facts

Swiss International Air Lines (SWISS) is Switzerland's largest airline. Operating one of Europe's youngest and most fuel-efficient aircraft fleets, SWISS provides direct flights from Zurich and Geneva that keep Switzerland connected with Europe and the world. Its Swiss WorldCargo division further offers an extensive range of airport-to-airport airfreight services for high-value and care-intensive consignments.

As The Airline of Switzerland, SWISS embodies traditional Swiss values and is committed to delivering the highest product and service quality. Being moderately sized, it is also particularly well equipped to get and remain closer to its customers and to offer them an air travel product that is specifically tailored to their individual needs.

SWISS is committed, long term and at various levels, to ensuring the careful and sparing use of resources, and has made a responsible attitude towards the environment, a cornerstone of its corporate culture. As part of the Lufthansa Group and a member of Star Alliance, SWISS also remains true to its mission of providing quality air transport services that connect Switzerland with Europe and the world.
