- If you have questions during the webinar, send it via the chat. Questions will be answered by us directly afterwards.
- After the webinar you will receive an email with a link to a small survey and the link to this presentation.

Public transport update Corona.

- Traveling in Switzerland by public transport is safe thanks to the protection concept.

1	2	3	4	5	6
 <p>Maske tragen.</p>	 <p>Abstand halten.</p>	 <p>Hygieneregeln beachten.</p>	 <p>Stosszeiten vermeiden.</p>	 <p>Billett online kaufen.</p>	 <p>Platz lassen.</p>

- Face masks are mandatory in all means of transport. **NEW: From 19 October**, the obligation to wear **face masks** will also apply **on platforms and in other waiting areas** for train, tram and bus connections (e.g. platforms, tram and bus stops) or in stations, at stops or in other access areas (e.g. cable car stations) of public transport. The wearing of a face mask is valid both **inside and outside** the specified waiting and access areas.

Using public transport despite Corona.

Schweiz.
mit Bahn, Bus und Schiff.

The public transport is certified and has received the "Clean&Safe" label from Switzerland Tourism. For a safe and clean trip to Switzerland.

Corona Update – pictures and videos.

Schweiz.
mit Bahn, Bus und Schiff.

- As long as wearing a mask in Swiss public transport is mandatory, STS refrains from using pictures with “normal” guests in public transport
- Wherever possible we show **train shots from outside** or people which are standing on e.g. a platform, in front of a boat etc.

Corona Update – pictures.

- If there is a picture or video shoot STS will always shot it twice – once with and once without mask. This way we can react more flexible.
- Since this is a sensitive topic in some markets, we kindly ask you to follow these guidelines
- Point of reference: SBB guidelines “picture and video corona”
- Important note: These guidelines are valid as long as the situation stays as it is. It could change any time

General situation STS AG.

- Currently, practically all markets worldwide are under pressure. STS is trying to develop ideas and topics for 2021/2022 with foresight.
- Furthermore, STS AG is seeking cooperation with other tourism partners in order to create added value for the trade and thus for the customer.
- Cooperation and creative ideas from distribution partners are welcome. Please contact the responsible market manager for verification.

Schweiz.
mit Bahn, Bus und Schiff.

Market assessments and forecasts 2021.

- Despite the current situation for 2021, STS is sticking to the commissions valid for 2020.
- The Swiss Travel Pass Peak prices (officially valid from 2021) are currently under review. Possibly these will be postponed to 2022. Further information will follow.
- STP Flex Pass promotions have been pushed to early 2021 in many countries. STS is monitoring the situation and will inform all partners in case of a possible start of this promotion.
- Further sales support measures for 2021 are also under review. These are to be implemented together with the distribution partners if necessary.

Post-Corona travel trends.

Schweiz.
mit Bahn, Bus und Schiff.

Discover niches and **less frequented** destinations

Less is more. Small is beautiful.

Greater focus on **sustainability**

Travel to **nature**, where distance is possible, more outdoor activities

Slow Tourism and regenerative **leisure** travel

Domestic travel and travel **closer to home**

Use of **land-based means of transport**

Autonomous & flexible travel with own means of transport (trend towards **road trips**)

Smaller travel groups

Shorter trips all year round, which are planned at **short notice**

More comprehensive **travel planning**.
Hygiene, safety and **reliability** as advantages

Working Holidays

Business travel at a lower level

Inexpensive and **qualitative** offers instead of just the cheapest

Focus topic 2021.

- In 2021, STS, together with ST, will increasingly focus on the topic of sustainability in its stores.
- Various content will be added in the coming weeks and will also be further developed with Switzerland Tourism.
- Summervacations
- Sustainability in public transport

Group reservations for public transport in Switzerland.

PLABE has been replaced by CAPRE «Capacity and Reservations»

Group reservations for trains, buses and boats not subject to a supplement can be made free of charge.
As a result of a system replacement (CAPRE for PLABE) there are some adjustments:

Distribution partners without direct access to the reservation system

- Reservation requests should now be sent to gruppen.servicecenter@sbb.ch.

Distribution partner with direct access to the reservation

- Existing reservations from PLABE were transferred to CAPRE. They are still visible in PLABE, but can no longer be edited there.
- CAPRE is developed according to the agile development method. This means that the system will continue to be developed and improved.
- Each user usually needs a personal login and should have been contacted by us in this matter. For questions: trade@swisstravelsystem.com
