## Swisstainable travel in Switzerland.

Besides offering unparalleled comfort, travelling around Switzerland aboard the Swiss Travel System is also easy on the environment.

In Switzerland, more and more trains are powered by sustainable energy sources. And even aboard certain boats, guests can travel knowing that their trip is climate neutral – for example on Lake Lucerne. Energy efficiency is also a priority for a growing number of mountain railways, which store the break energy on the downhill journey, which is then used to power the train during its ascent.

### Preserving Switzerland's beauty

While you enjoy panoramic views and get kissed by the sun, solar energy covers part of the energy needs of facilities linked to the Swiss Travel System. This goes a long way in helping to preserve the country's natural beauty, which guests like yourself treasure so much. Switzerland Tourism recognises companies that demonstrate their commitment to becoming ever more sustainable with its "Swisstainable" label. Train, bus and boat operators consistently rank among the top in their field.

- Glacier Express: from St. Moritz to Zermatt**  
 Enjoy the most diverse views since the introduction of panoramic trains. From St. Moritz through the Rhine Gorge over the Oberalp Pass to Europe's most famous mountain, the Matterhorn in Zermatt. All on the slowest express train in the world.
- GoldenPass Express: from Montreux to Interlaken**  
 Lake Geneva, vineyards, and impressive castles: the GoldenPass Express combines the French-speaking "Riviera" region around Montreux with characteristic Swiss hillscapes. Step on the train and let the picturesque landscapes roll by.
- Gotthard Panorama Express: from Lugano to Lucerne**  
 The Gotthard Panorama Express is more than just a panoramic route: here, train and boat merge two beautiful Swiss regions into one unique experience. Starting in the Ticino, the journey leads first over the Gotthard mountain route and then across Lake Lucerne to the city of Lucerne.

 The Postbus brings guests comfortably and safely to some of Switzerland's most picturesque places. Sitting at 2,478 metres above sea level, the Nufenen Pass is Switzerland's highest Alpine crossing. From the highest point, breathtaking views of the Bernese Alps await.
- Rigi, 1,797 m a.s.l.**
